

PROPOSED RESIDENTIAL VISITS

We are delighted that there is such a rich and varied programme of residential visits offered to students each year; they represent significant opportunities beyond the curriculum and many take place in the school holidays. In order to help with forward planning we have drawn up a table showing the proposed trips which are available for this and the following academic year.

As usual, details of the individual visits will be sent to the parents of relevant year groups by the staff responsible at the appropriate time.

I hope that this overview of major residential trips is useful to you. If you have specific queries regarding individual residential trips please contact the relevant members of staff.
